T10: final-normed fork states on the readout plane
(isolines through the mean off-plane component; cos(dI, dB) = 0.995)
instruct fork state h_fin
base fork state h_fin
margin isolines, instruct S rows
margin isolines, base S rows (ROWS_ALL readout)
u2 = base readout direction, orthogonalised
u1 = instruct readout direction (mean w_D - mean w_A), units of h
B3: final-normed fork states on the readout plane
(isolines through the mean off-plane component; cos(dI, dB) = 0.995)
instruct fork state h_fin
base fork state h_fin
margin isolines, instruct S rows
margin isolines, base S rows (ROWS_ALL readout)
u2 = base readout direction, orthogonalised
u1 = instruct readout direction (mean w_D - mean w_A), units of h
